RELIEF FOR THE TUGS.

Fishing Crafts on Lake Erie Rescued From the Ice Field.

FIREBOAT CLEVELANDER DID IT.

The Men on Board the Little Steamships Were Found to Have Suffered Greatly From Cold and Hunger.

Cleveland, O., March 21.—After a terrific battle with ice, the fire boat Cleveland, carrying a large supply of provisions, succeeded in reaching the two fishing tugs and the fireboat Farley, imprisoned in an ice field off this port. The fishing tugs started out from here Monday evening for Huron and were caught in the ice, from which they could not get free. In response to their signals of distress, the fireboat boat Farley was sent to their assistance, but she became jammed in the ice and was rendered helpless. Then the powerful fireboat Cleveland was started out, and after two hours work succeeded in opening a channel through ice 18 inches thick to the three vessels. Thirty men all told were on the three ice bound vessels. They suffered intensely from cold and hunger. There was practically no food on any of the imprisoned vessels when they left port.

The four boats found little trouble in steaming their way into the river after a channel had been opened by the Cleveland. The fishing vessels were damaged to a considerable extent by the ice. As the fleet came up the river it was greeted by cheers by many people along the docks.

Testimony in Marsh Case.

Lansing, Mich., March 21.—The first testimony was taken in the trial of Arthur F. Marsh, ex-inspector general, for alleged complicity in the state militia clothing frauds. Two deputy attorneys general swore, to communications between the indicted ex-officers and the attorney general's office in reference to the disposal of the clothing in question. Witnesses testified that the now indicted military officers did not follow the attorney general's advice, which was to turn over such clothing as the state military board desired to dispose of to the board of state auditors. Records of the military board's proceedings were introduced in evidence.

The Horlocker Trial.

Hastings, Neb., March 21.—The court room was crowded when the trial of Viola Horlocker, a stenographer charged with sending poisoned candy to Mrs. Morey, the wife of her employer, was resumed. There was a fair proportion of women among the attendants. The work of securing a jury was taken up and the last of the 12 men was accepted and the jury sworn. The opening statements of the trial were made. From the fact that each jurymen was questioned regarding his opinions regarding insanity as a defense in a criminal case, it is taken for granted that this will, at least, be part of the defense.

Shot at the Judge.

Paris, March 21.—In the palace of justice an attempt was made to murder the presiding judge of the Fifth court by a druggist named Bardin, who has just lost a suit. The judges had just taken their seats and counsel in another case had begun his speech when Bardin aimed a revolver and fired three shots at the judge, who had a narrow escape, the bullets grazing his head. Municipal guards threw themselves on Bardin and removed him to a cell, while the judge, with perfect coolness, said to counsel: "You can continue, Maitre; it is nothing."

Orders For Mines.

Houghton, Mich., March 21.—Leading mine managers and engineers from the Transvaal who have visited the copper district since the beginning of the Boer war regard the destruction of mining plants in the Transvaal as highly probable. Mine managers are here to place orders for new equipment immediately after the destruction of the old machinery. One Johannesburg mine manager now here has full plans and specifications for a new plant which will cost about \$1,000,000.

Cleveland, O., March 21.—As a result of the recent increase in wages granted the Massillon miners, the Massillon district coal operators association decided to raise the price of coal 25 cents per ton. The increase in the wages of the miners, it is stated, amounted to 20 per cent. The advance in the price of coal is to take effect April 1.

James A. Hart will await the signature of all members of the American league before he will sign an agreement for a team in Chicago.

UNDER OATH.

Witness Testifies About Conditions Imposed at Coner d'Alene.

Washington, March 21.—The examination of A. F. Gill was continued before the Couer d'Alene investigating committee. In response to inquiries by Representative Lentz the witness told of a visit to the "hull pen." At that time a prisoner chanced to put his fingers through a hole in the side of the prison. Thereupon, the witness said, a colored soldier who was on guard on the outside, shoved his bayonet at the protruding fingers, inflicting a bloody wound. A copy of the permit required of those seeking work in the Couer d'Alene district was introduced. It recited at length facts concerning the holder—that he was not a member of a union, and that he took an oath to obey the law. The witness said he had not taken out a permit regarding it as a badge of servitude and un-American to require an oath to obey the law. Representative Jett made the point that the law presumed that a citizen obeyed the law until otherwise proved. The cross examination was directed to showing that the permit system was designed to secure an orderly force of workmen in the mines.

The witness maintained, however, that its effect was to blacklist those who did not take out a permit, and also to set up an "oligarchy or aristocracy" of those in control of the permit system. He said that the class of miners had deteriorated under the system, so that now women did not take the night trains, as many drunken men carrying dirks in their belts, were on board.

No Agreement on Wheeler's Case.

Washington, March 21.—General Wheeler called at the war department and officially reported his return from the Philippines to Secretary Root in accordance with the orders of the department. It was expected that the question of General Wheeler's future military status would be determined at this meeting. Secretary Root was so busy, however, with other important questions which had accumulated during his absence from the city, that it was concluded best to defer the consideration of General Wheeler's case to a more opportune time. The matter will probably be settled within a few days.

To Be Taxed in Bulk.

Washington, March 21.—The ways and means committee gave a hearing to a delegation of insurance officials and agents who desire a change in the revenue tax law by which, in lieu of adhesive stamps on individual transactions, the business will be taxed in bulk. It was urged that the proposed change involved no loss in revenue to the government, but altered the manner of collection so as to avoid the inconvenience and business disorder caused by stamping each transaction.

Bank Officials Barred.

Washington, March 21.—A bill restricting national banks from making loans to their officers was favorably acted on by the house committee on banking and currency. The measure has been urged by the comptroller of the currency on the ground that many bank failures were caused by ill-advised loans to officials of the banks. The expected large increase of small banks under the new financial law, is said to be additional reason for the restriction of loans to bank officers.

Mr. Turner Desires Information.

Washington, March 21.—Soon after the senate convened Mr. Turner (Washington) offered a resolution directing the secretary of war to inform the senate whether any concessions to excavate the gold-bearing bed of the sea in the vicinity of Cape Nome, Alaska, or in other Alaskan waters, have been made to any individual or corporation or association by the secretary of war or any other war department official, and if so upon what theory of authority such grant was made.

Proposed Hospital at Hot Springs.

Washington, March 21.—Representative Little, of Arkansas, has introduced a bill appropriating \$200,000 for a soldiers' hospital at Hot Springs, Ark., at which shall be admitted soldiers of all the wars of the United States, including the Spanish war, who desire treatment for the peculiar diseases for which the waters of the Springs are efficacious.

Mamie Reting Acquitted.

Cincinnati, O., March 21.—Mamie Reting, who shot Edward Grafe on the street, after he had refused to marry her and legitimize their child, was acquitted by the jury. It was shown that the defendant had made several attempts at suicide and was the victim of insomnia. The prosecuting attorney, at the close of the testimony, asked the court to instruct the jury to find her not guilty on the ground of insanity. This was done

ON THE COOLING BOARD.

Is Laid the Corpse of the Mackenzie Street Railroad Bill.

THE MUNICIPAL CODE MEASURE.

Will Be Considered by the Senate Two Mornings in a Week—Action of the Committees on Various Affairs.

Columbus, O., March 21.—Mr. Mackenzie's bill to have street railway franchises referred to a vote of the people was given its second and final death blow in the house. It was the substitute bill providing that ordinances granting right of way, or to renew a grant or franchise, should be ratified by the people before becoming effective. The bill was championed by Mr. Mackenzie, Mr. DeRan, Mr. Clark, Mr. Russell and Mr. Brumbaugh, the major argument in its behalf being the doctrine of the referendum. Those who opposed the bill on the floor were Mr. Adams of Coshocton, Mr. Price of Athens and Mr. Finck of Perry, the burden of their arguments being that the bill would be fatal to the promotion of interurban railways. Debate was interrupted by the previous question being demanded, and after the bill was defeated, the action was clinched by voting down a motion to reconsider.

The vote was as follows: Yeas—Ainsworth, Atherton, Bartlow, Booth, Brown of Mercer, Brumbaugh, Clark, Cline, Clyburn, Collier, DeRan, Duff, Garrison, Gehret, Gray, Griffin, Hendley, Kreis, Mackenzie, McCurdy, Mauck, Melber, Ross, Rothe, Russell, Saffin, Saylor, Silvey, Smith of Cuyahoga, Swain, Tilden, Warwick, Wells—33.

Nays—Adams, Adkins of Allen, Adkins of Pickaway, Allen, Ankeney, Armstrong, Arthur, Bell, Beck, Brown of Paulding, Buell, Chapman, Clement, Cole, Conings, Crafts, Davis, Demuth, Finck, Gear, Hagenbuch, Hamill, Haner, Hater, Heywood, Hoffheimer, Holaday, Hunt, Hunter, Kinsman, LeFever, Longworth, Love, McKee, McKinnon, Magee, Manchester, Merion, Metzger, Middleswart, Painter, Partington, Pollock, Pool, Price, Rankin of Clark, Rankin of Payette, Rannels, Raub, Riegle, Seese, Snyder, Thomas, Tuller, Willis and Speaker Reynolds—56.

The house committee on public works recommended the indefinite postponement of Mr. Merion's bill to abandon the Columbus feeder of the Ohio canal.

Mr. Rothe's bill to prohibit messenger boys from delivering messages at houses of ill repute was reported by the temperance committee without recommendation. Mr. Rothe thereupon moved that the bill be indefinitely postponed, which was agreed to.

Mr. Russell's bill to prohibit the sale of patent medicines containing alcoholic ingredients by general store keepers was also killed by indefinite postponement.

The reports of committees was completed and 30 more bills were added to the calendar. Among the bills of general interest favorably reported not otherwise mentioned are the following:

A substitute to enable interurban roads to enter cities over local lines; an anti-cigarette bill to prohibit selling or giving cigarettes to persons under 21 years; to prohibit selling liquor on Memorial day; making cigaret license to retailer \$100 and to wholesaler \$200.

Russell bill to exempt witnesses from incriminating themselves in testifying in trust cases was defeated by a vote of 47 yeas to 47 nays, lacking 9 votes of the necessary majority to carry. Motion to reconsider voted down by 43 yeas to 55 nays.

In the Senate.

The senate will take up the municipal code bill. A resolution that the senate as a committee of the whole each Tuesday and Thursday mornings to consider the code bill, which was introduced by Senator Harding, was adopted.

Mr. Nippert introduced the Cincinnati boulevard bill. It provides for the abandonment of the canal in Cincinnati from Cheapside basin to Liberty street and its sale to the city.

The senate adopted a resolution offered by Senator Archer, expressing its sense of loss in the death of Hon. John A. Bingham, of Cadiz, and its sympathy with his family.

Among the bills reported with recommendation for passage in the senate was that of Senator Sheppard to forbid the appearance of attorneys before the managers of the Mansfield reformatory to urge application for the parole of inmates.

Senator Long introduced a bill which is intended to secure full publicity of application for remission of taxes to the state board of tax remission. It requires that notice of such application must be published twice in some news-

paper published in the place where the property is, stating what the property is, and how much taxes it is asked to have remitted. The bill is the result of trouble growing out of two cases recently presented to the board—the Cincinnati street railway and the Covington bridge company.

Senator Myers introduced a bill to sell a part of the Walhonding canal in Coshocton county for highway purposes. The canal is out of use.

The senate adopted unanimously a resolution to admit to the Soldiers' and Sailors' Orphans' home at Xenia Cornells Varga, a Porto Rican boy who accompanied the Fourth O. V. I. in the Porto Rican expedition as the regimental mascot, and was brought to this country.

TURKISH GENERAL DIES.

For Months He Checked the Russians, Killing Thousands.

New York, March 21.—A despatch from Constantinople announces the death of Osman Pasha, the hero of the Plevna, and the greatest Turkish soldier of recent times. He was 63 years old. His defence of Plevna against an overwhelming Russian force in 1876, gave Osman enormous prestige. By the intrenchments he caused to be thrown up he arrested for four months the advance of the Russians. In three pitched battles he overcame the finest troops of the czar's armies. On July 1, 1876, he inflicted a loss of 3,000 kill-

OSMAN PASHA.

ed and wounded on his assailants. The next battle cost the Russians 170 officers and 7,136 men and the three days' stubborn assault of Skobeloff later on, when the Russian grenadiers got within 500 yards of the trenches, but failed to pass the fatal fire zone ended in a Russian loss of from 15,000 to 20,000 men.

It was resolved to starve out the army of Osman, which originally numbered about 56,000 men, and an army of 120,000 Russians completed the investment.

At length, 45 days after the close siege had been established and 141 days after his own arrival at Plevna, Osman determined on a desperate attempt to cut his way through. The struggle was of the fiercest sort, but hours of bayonet fighting ended in the Turks being driven back, and the "defender of Plevna" surrendered with the honors of war.

Raid on Highbinders.

San Francisco, March 21.—A police raid on the Highbinders resulted in the arrest of six of the most notorious members of the Suey Sing Tong. Each of the men in custody is accused of at least one murder, and several are suspected of having assassinated two or more members of rival Tong. The supposed leader of the gang is Su Ho Mun, who is charged with four murders. Su Ho Mun attempted to draw his revolver when the officers arrested him, but he was disarmed. Other arrests will follow, but the police admit that convincing evidence will be hard to secure in all of the cases.

Delaware Republicans.

Wilmington, Del., March 21.—The regular state Republican convention in session at Dover elected delegates to the Republican national convention. The resolutions adopted by the convention endorse the administration of President McKinley and ask for his re-nomination. The convention of the Union Republicans, the Addecks faction, will meet at Dover on April 3, and elect another set of delegates, and the national committee will be called upon to decide which is the regular party, as in 1898.

President O'Connell at Cleveland.

Cleveland, O., March 21.—President James O'Connell, of the International Machinists' union, arrived here from Chicago, and subsequently had a long conference with the officials of the local machinists' union in regard to the proposed strike in this city. A meeting is to be held which, it is expected, will be largely attended by both union and non-union machinists. It will then be decided whether a strike will take place.

THE SWISS REPUBLIC

Declines to Offer Mediation to Settle War in South Africa.

MAFEKING IS AWAITING RELIEF.

A Corps of Young Boers Under an Imperial Officer Has Been Detailed For Police Duty to Protect the Farms.

London, March 21.—The only news from South Africa showing activity on either side comes from Warren-town, north of Kimberley, where desultory firing occurred all day Sunday, resulting in the retreat of the Boers toward Christiana under shell fire.

The progress of this column toward Mafeking has almost ceased, or is forbidden to be mentioned in despatches. Nothing new comes from Colonel Plumer and Mafeking still apparently awaits relief.

The Pretoria account of the skirmish at Fourteen Streams, March 16, says that a Boer command was preparing to destroy a railroad bridge and that the engagement lasted half an hour, with the result that one bugler was slightly wounded.

The same despatch announces the arrival at the Transvaal capital of Colonel Schaalkburger, from Natal.

The second edition of the Times publishes a despatch from Bloemfontein, dated Monday, March 19, which says: "The blowing up of bridges by the Boers is an evident sign that the Transvaalers intend to abandon the defense of the Free State."

All is quiet in the west and south. A corps of young Boers from the farms surrounding Bloemfontein, under an imperial officer, has been detailed for police work, and to prevent the further looting of abandoned farms by the Kaffirs.

Swiss Council Declines to Intervene.

Berne, Switzerland, March 21.—The federal council has answered the Boer appeal for mediation as follows: "The Swiss federal council would have been pleased to co-operate in friendly mediation in order to end further bloodshed, but as the president of the South African republics have directly approached the British government in order to conclude peace on a basis indicated, and the British government has shown itself against the proposal; and, as furthermore, the British government has declared to the cabinet at Washington that it did not propose to accept the intervention of any power, the Swiss federal council, to its regret, must also renounce the idea of taking any steps on the lines of the requests made by the presidents of the South African republics. There remains for the federal council in the circumstances nothing but to express its sincere wish that the belligerents will have succeeded, at no distant date, in finding a basis for an understanding honorable to both parties."

Bridge Across the Tugela.

Pietermaritzburg, March 21.—A temporary bridge across the Tugela at Colenso is now open for traffic and there is at last a direct railway service between Durban and Bloemfontein. The first train to cross the bridge was the Princess Christians hospital train. This magnificent train has been badly wanted in Natal since the beginning of the war.

Millions Involved.

Butte, Mont., March 21.—A mining suit between the copper kings, Marcus Daly, and United States Senator Clark is on trial in the United States court. There are three suits in all, but the trial of one will determine all contentions. The mines involved are the Never Sweat, of the Anaconda company, and the Colusa and Parrott, owned by the Colusa-Parrott Mining company, of which Senator W. A. Clark is the head. The question of apex is involved in this, as in other similar suits tried in the courts and the determination of the matter will mean millions of dollars to the company securing a favorable decision.

To Offset a Strike.

New York, March 21.—In anticipation of an extension to this city of the strike of machinists now in progress in Chicago, Columbus, O., and Paterson, N. J., local manufacturers of machinery are pushing forward the work of perfecting an organization to cope with it when it comes. Plans for such a body were laid some time ago, but the threats recently made by the international association of machinists to make the Chicago strike national and call out 100,000 men in addition to the 6,000 now out in Chicago and the 1,000 in Columbus and Paterson resulted in an increase of activity of manufacturers here.

REPUBLICANS may resolute against "the vile murder" of Governor Goebel and pledge their "worth and manhood" in the effort "to run the criminal to earth," but nobody has seen or heard of any of them falling over each other in the mad hunt.

The Republican Congressional Committee at its meeting here this week saw fit to endorse all of Mr. Taylor's official acts. That means they endorse the order rushing a lot of soldiers to the executive building when Goebel was shot, and keeping the civil authorities out of the building for days, thus permitting the assassin or assassins to make good their escape. It also means an endorsement of his act in pardoning the men accused of the foul crime before the courts ever had an opportunity to investigate the charges. Well, if our Republican friends wish to endorse such infamous proceedings, they have a right to do so.

REPUBLICANS seem greatly worried over the alleged confession of Wharton Golden giving the names of the conspirators who brought about Goebel's assassination. Golden is a Republican and was a State guard at Frankfort at the time of and previous to the assassination, and was all right then. Now they say he is "foxy," that he is "drinking," that he is after some of that big reward, that one of his brothers declared for Goebel last fall, and so forth and so on. If there was a conspiracy to put Goebel out of the way, Golden was no doubt acquainted with the details, and it is not surprising under the circumstances that the friends of Powers and others under arrest are uneasy over the late disclosures.

WHEN WILL THEY HAVE ENOUGH?

Things must be reaching a critical stage when such a staid old Republican paper as the Ripley Bee publishes the article below. It was taken, however, from the Chicago Journal, a leading Republican organ, which fact may have deceived Br'er Newcomb:

The Carnegie Company made \$21,000,000 last year, and yet Mr. Carnegie is not satisfied. He wishes to get possession of Mr. Frick's interest for less than its value.

The Standard Oil Company has just declared a quarterly dividend of \$20,000,000, or at the rate of \$80,000,000 for the year, and yet its directors are not satisfied. They wish Congress to pay subsidies to the ocean-going vessels in whose earnings they have a share.

If there are any other American corporations whose profits were \$20,000,000 last year, or promise to be \$80,000,000 this year, it may be taken for granted that the men at the head of them are no more satisfied than the Carnegies and the Rockefellers and are no more scrupulous as to the methods of adding to their possessions.

There seem to be no limits to the rapacity of corporations which have been built up at the expense of the public by excessive tariff protection, by illegal railroad discriminations or official favoritism. The men who rule these corporations may not "want the earth," but they certainly want the United States and the abundance thereof.

They and their allies on land and sea are working at the entire subjugation of the Government, so that they may add more millions to their present annual revenues of \$20,000,000 in the case of the Carnegie Company and \$80,000,000 in the case of the Standard Oil.

They try to put their creatures in all official places which touch their interests at any point.

They demand subsidies for their ships. They insist that the money of the Government be deposited in banks in which they are heavily interested, so that they may be able to control the stock markets and lend to the tax-payers the money which the latter have contributed to defray governmental expenses.

Their demands are usually complied with.

"There are three things that are never satisfied, sea, four things say not 'It is enough.'"

That may have been the case in the old Hebrew days.

To-day there are the Standard Oil Company, the Carnegie Company, the sugar trust, the International Navigation Company, the National City Bank and other colossal corporations which overshadow the Government itself and are never satisfied.

When will they have enough?

JUSTICE IN KENTUCKY.

Without regard to the persons now named in warrants sworn out for their arrest on the charge of being accessories before the fact to the willful murder of William Goebel, the American public will hope that such evidence has been secured as may enable the Kentucky authorities to solve the mystery surrounding that crime and to bring all the guilty parties to justice.

A vigilant prosecution of the search for the hidden facts of the assassination of Goebel, prompt action on the evidence in hand, a fearless conduct of the case in the courts are demanded of Kentucky. Whether those implicated shall prove to be of high or low degree, they must be punished to the full extent of the law. No influence should avail to shield them. Should they prove to be of so high standing in the State as well-nigh to dismay the community, their sin is but the greater for this very reason.

And for this reason, also, will it be more imperative to make an example of them. The State of Kentucky itself is on trial in this black case. Its duty in final settlement is one that rises far above party. Republicans and Democrats alike should join hands in its performance. The assassin who shot Goebel to death in the streets of Frankfort, the accomplices who may have been with him at the time, the men who knew of the contemplated crime, those who may since its accomplishment have endeavored to shield the criminal, must be punished. —Exchange.

This is plain and to the point. Instead, however, of the Republicans joining hands in the efforts to ferret out the assassins, certain of them have retarded and prevented the officers who were at work on the case.

Then too lawyers and detectives who have been employed in the case are villified in the Republican and anti-Goebel press, and the appropriation of funds by the Legislature as a reward for the assassins is denounced, all of which is calculated, and is no doubt intended, to have its influence upon juries in the final trial of the parties charged with the foul crime. But there will be no let up in the work, and from present indications the detectives are on the right track, and the world will soon know the conspiracy in all its foul details.

THE EVENING BULLETIN printed recently, under glowing headlines, what purported to be an article from the Louisville News, a Republican paper, in which the latter paper was made to desert the cause of Governor Taylor and to espouse that of "Beauty" Beckham and Company. —Public Ledger.

The authenticity of the News' article denouncing Mr. Taylor has not been denied. The article in question certainly does not estop the editor from giving Col. Tom Campbell some very plain advice.

Firstly, we would suggest that you inspect our immense and choice stock of new Spring Silks before you make your purchases. We use no words to induce you to buy, the Silks must speak for themselves. FATALLY HURT.

George Wood, of the Sixth Ward, Died This Morning as a Result of Injuries Received Wednesday.

Mr. George Wood died early this morning at his home in the Sixth ward as the result of injuries accidentally received Wednesday afternoon.

Mr. Wood was an employe at the Ball-Mitchel Company's foundry. About 2 o'clock Wednesday afternoon he entered a room where an emery wheel was in operation. Suddenly the wheel burst. A piece of it struck the unfortunate man, and the crown of his skull was fractured either by the force of the blow or by his fall.

Physicians were summoned and Mr. Wood was later removed to his home, where he lingered in an unconscious condition until this morning, when his injuries caused his death.

Mr. Wood was about thirty-two years of age, and leaves four or five children. His wife, who was a Miss Kincaid, survives.

All taxpayers of the Sixth ward, who are interested in its drainage and establishing a thorough system of sewerage in order of bringing about a healthful condition in said ward, are respectfully requested to meet at the Limestone fire hall on Thursday, March 22nd, at half past 7 o'clock p. m.
